

Partial List of NCFM Activities for 2009

Location	Date	Service Description (including who provided the service)	Number of Beneficiaries
		<p>NOTE: NCFM is the oldest men's rights organization in America and dedicated to the removal of harmful gender based stereotypes, particularly as the impact men and boys.</p> <p>NCFM is an all volunteer organization with no paid employees. Consequently, we do not have the resources to maintain tracking systems for those to whom we provide direct services. Secondly, unless involved in a highly publicized court case the names of those we help would be confidential.</p> <p>What follows is an abbreviated list of NCFM activities. We hope it is sufficient for the purposes of this application.</p>	Indeterminate (ID)

National - California	2008	NCFM volunteer attorney Marc Angelucci wins landmark gender discrimination case Woods et el v. Shewry (County of Los Angeles) before the California Appellate Court, July 22, 2008. This published decision shook the domestic violence industry and is still changing the way domestic violence shelters operate coast to coast; it has caused some shelters to change their name to demonstrate gender inclusiveness as well as encourage them to provide services to men and boys. The decision impacted every domestic violence service provider in the nation in one way or another; and, will do so for years to come.	ID, but millions and growing

NCFM helped establish the corporation, set up the website, provided office space, and coordinated and participated in various meetings, events, and rallies.</p> <p>Central to CRISPE was a specially equipped high end 42' custom coach; or, as it became known, "The Big Purple Bus". The coach was wrapped in various shades of purple with slogans about the need for 50/50 presumptive shared parenting. The coach traveled throughout the United States completing a national tour in 2007 including participating in a national rally in Washington D.C. in August.</p> <p>Wherever the CRISPE coach traveled it educated others about the importance of children having both parents in their lives.</p> <p>NCFM and CRISPE members met on the CRISPE Bus with leaders of numerous organizations, legislators, and even the Governor of West Virginia. Larry Kerkman flew to by invitation to Utah to address their legislature.</p> <p>NCFM members supporting CRISPE at Los Angeles event May 2007.</p>   <p>CRISPE bus getting positioned for an even in Seattle June 2008. CRISPE staged numerous rallies in front of the San Diego Family Court building on Sixth Avenue and traveled throughout California (including rallying with the "CRISPE Crew" to two Alec Baldwin court hearings in Los Angeles) with trips to Nevada and Arizona several times in 2008. Wherever the CRISPE bus traveled it educated to one degree or another everyone who saw it or asked about it. Go to www.crispe.org for</p>	<p>ID, but millions of people saw the bus as it toured.</p> <p>One purpose of these tours was to bring like minded groups across the nation together. There were also rallies staged in various states, including a full week at the Wisconsin State Fair.</p>

		<p>more information. In late 2008 it became apparent the organization could no longer afford that bus, which was retired after only a couple of rallies in San Diego early that year, though the organization still functions.</p> <p>CRISPE had far reaching implications, including the formation of CRISP- India (www.crisp-india.org) which started up with a caravan (travel trailer) wrapped in purple vinyl with slogans about the need to have both parents in their children's lives. CRISP not only adopted our name but our colors, and most importantly, our ideals.</p>	
Based in Virginia	2007 - 2009	<p>NCFM members founded and NCFM helps fund Respecting Accuracy in Domestic Abuse Reporting (RADAR: see http://www.mediaradar.org/). Representatives from RADAR, NCFM, and over 90 national and international sponsoring organizations are united in the belief that the current domestic violence industry needs serious reforms. RADAR has authored original research now being quoted in the press. Several times each year 10 to 20 members of the coalition gather in Washington D.C. and distribute educational literature to all Senatorial and Representatives' offices, as well as meet with staffers and an occasional elected representative. In 2008 NCFM funded educational radio ads in several states around the Great Lakes (Wisconsin, Michigan, Illinois, Indiana, Minnesota and others) while RADAR ran similar ads in other states.</p>	ID, but far reaching influences changing the nature of the domestic violence industry which we trust is and will help the entire nation.
